Mobile App — Design Review

25 screens **2** design systems Generated June 14, 2026

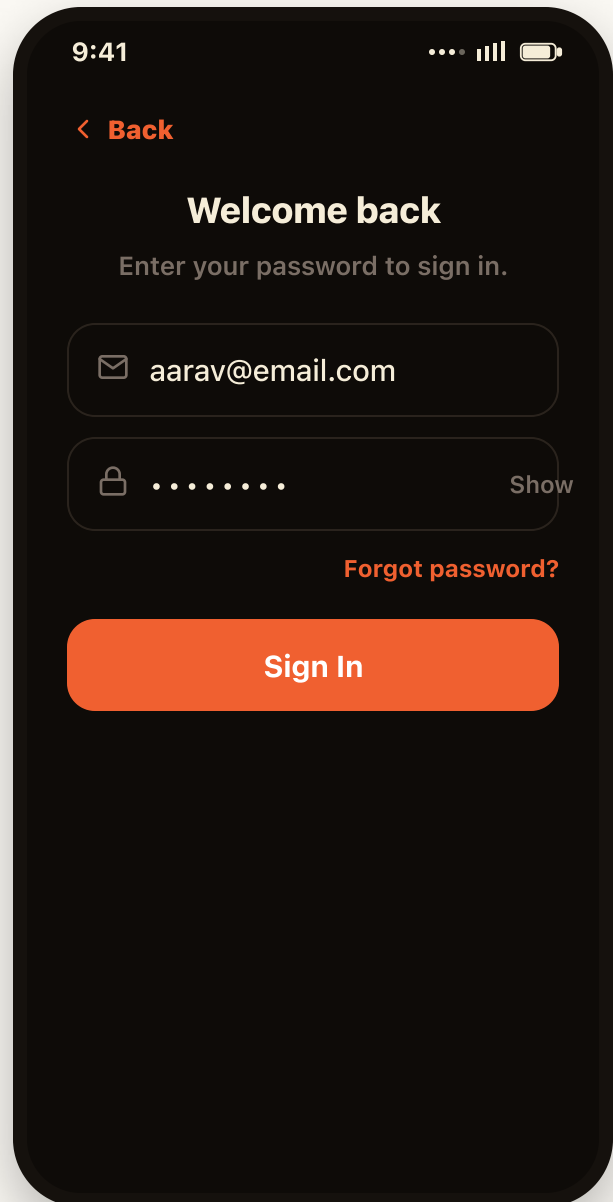

Static HTML mockups recreated from the React Native (Expo) source — colours, type (DM Sans), spacing and copy mirror the live screens. For review only; not interactive.

- Warm “food” theme — feed, explore, create, profile
- Telegram-blue theme — Table Memory chat room

Onboarding — username

Post-signup. Confirms name and picks the @handle friends use to find your reviews.

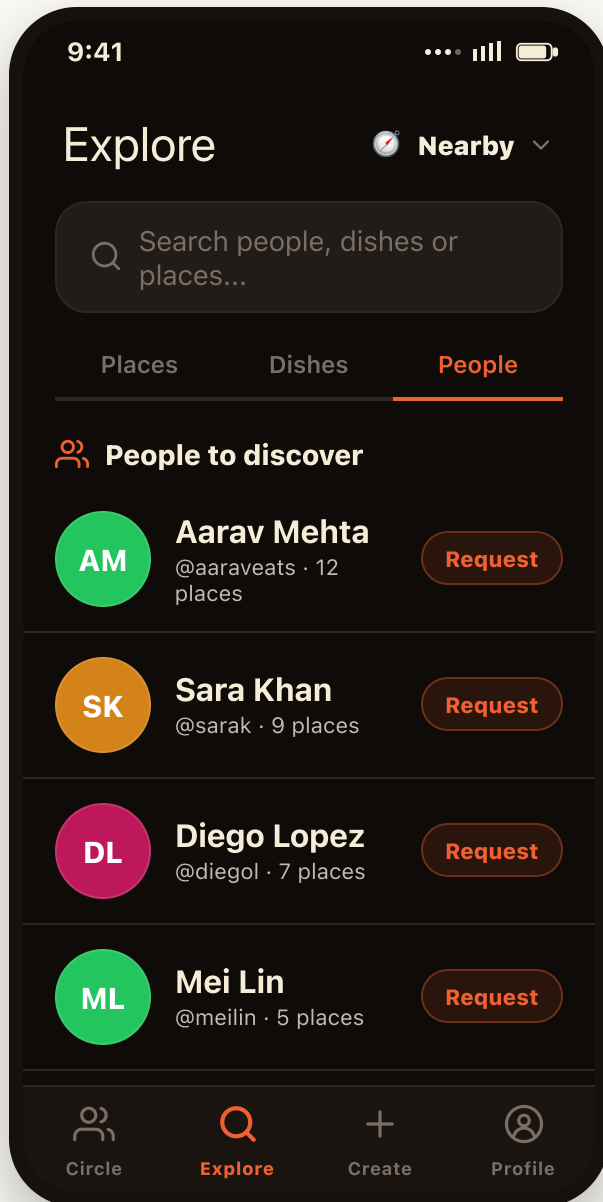

Circle — home feed

The landing tab. Trusted food posts from people in your circle. Bell opens notifications.

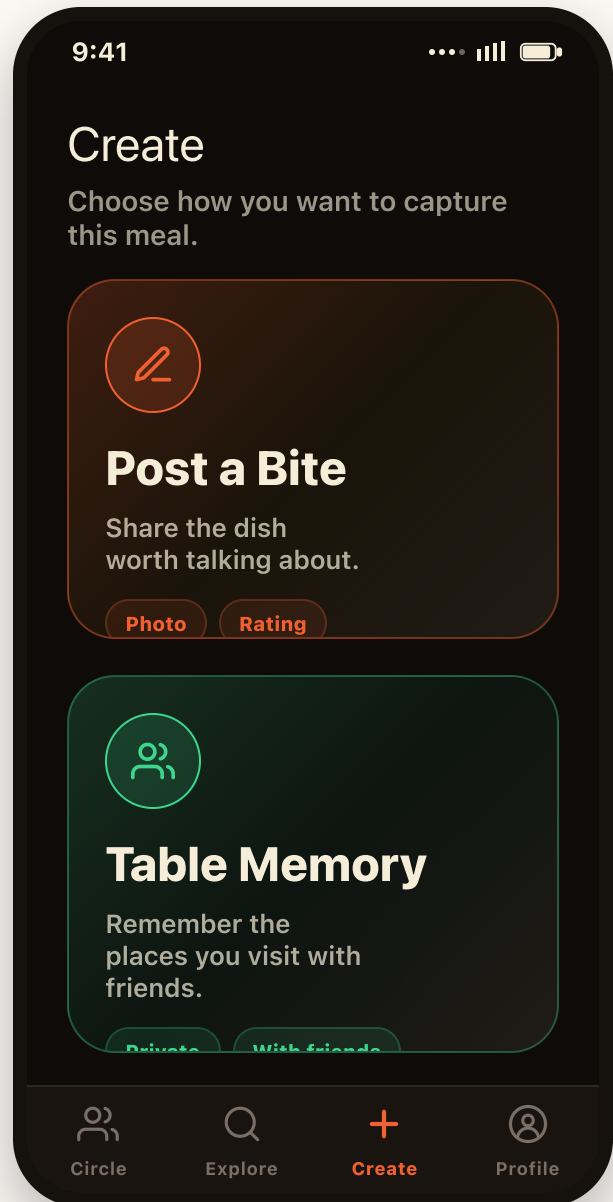

Explore — Places

Discovery tab. Search + category grid; ranked places aggregated from public posts with social proof.

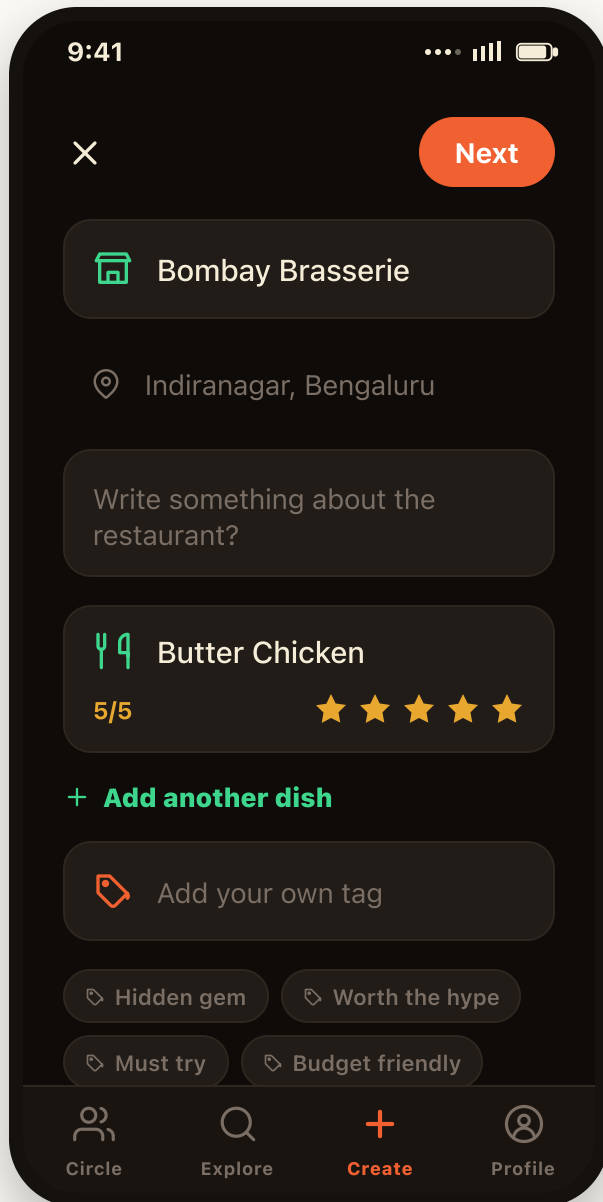

Explore — People

People-discovery tab. Reviewers ranked by places shared, with a one-tap circle Request.

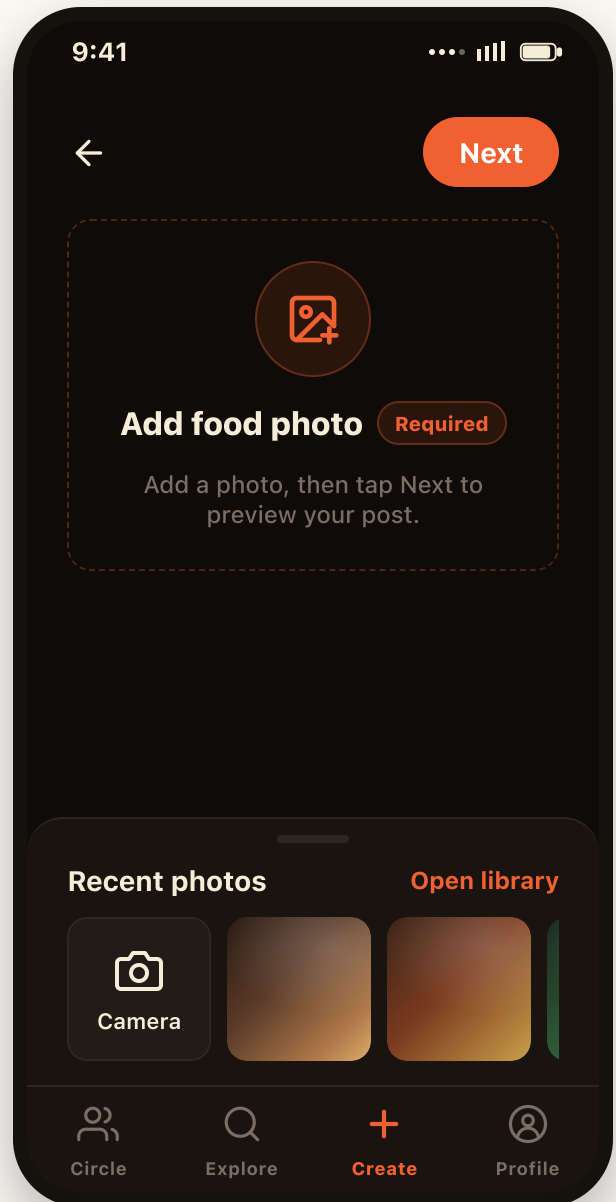

Create — choose mode

The + tab. Two paths: a public/circle Bite post, or a private Table Memory with friends.

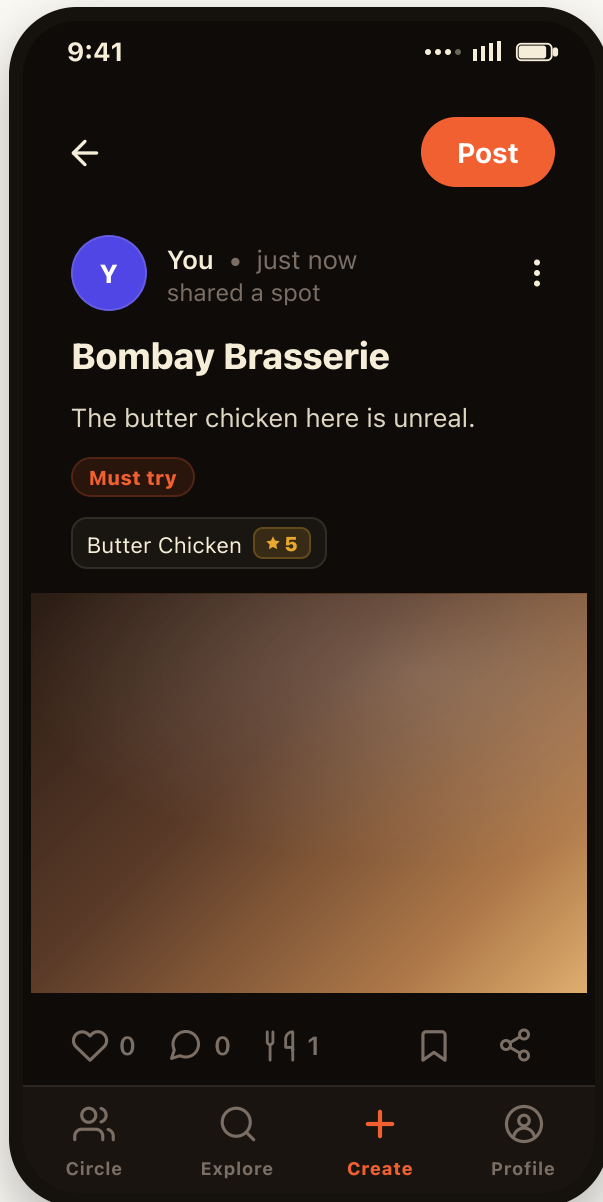

Post a Bite — details

Step 1 of 3. Place autocomplete, free-text note, rated dishes, and up to five tags.

Post a Bite — photo

Step 2 of 3. A photo is required; a recent-photos sheet and camera tile sit above the fold.

Post a Bite — preview

Step 3 of 3. Exact feed-card preview, then choose visibility: Public, Circle, or Just me.

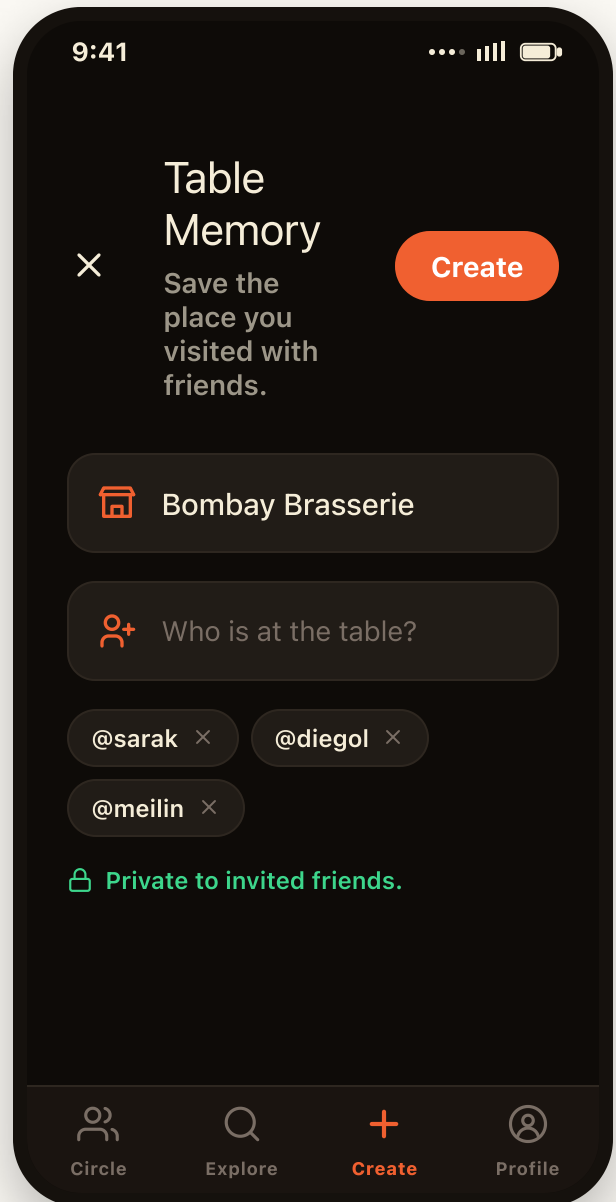

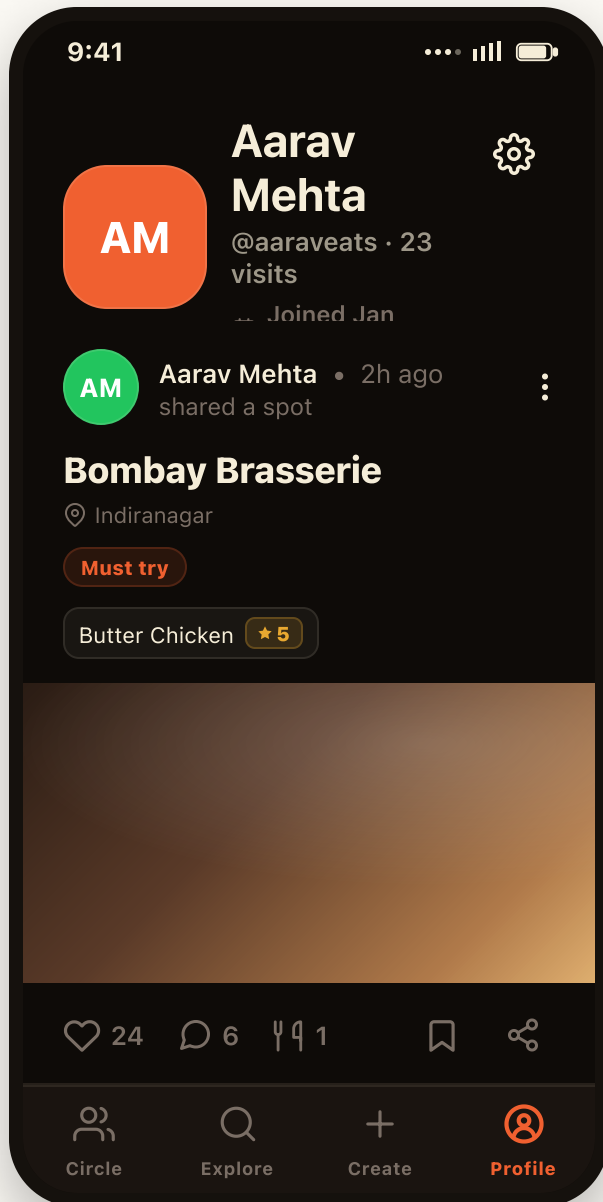

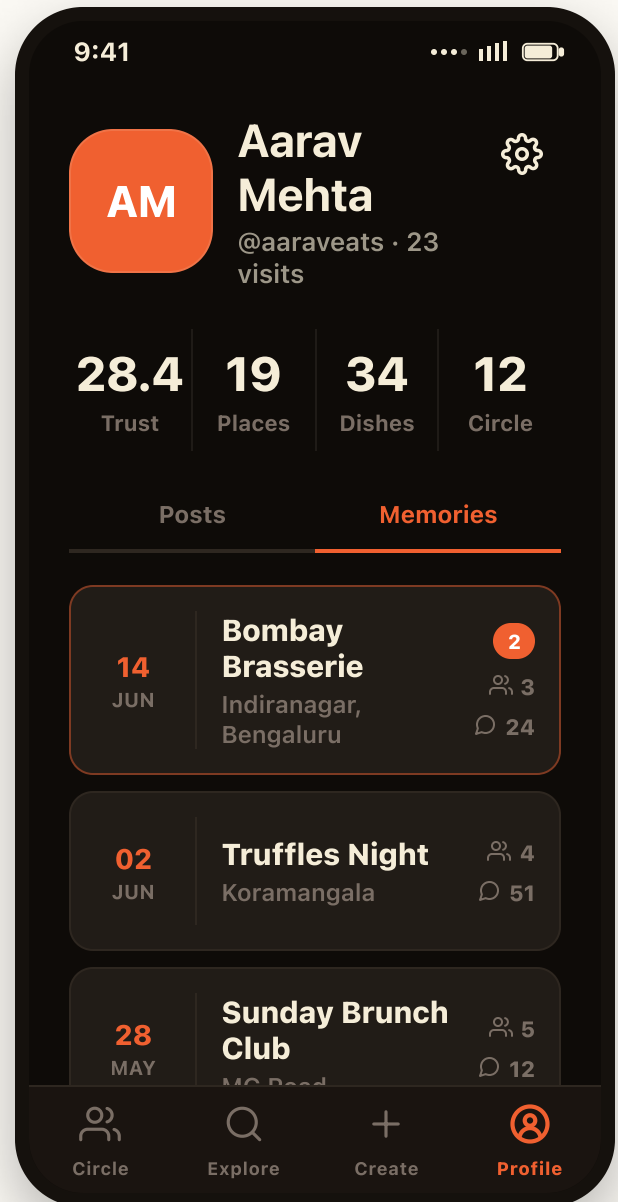

Table Memory — setup

The friends path. Pick the place and invite friends by @username; private to the table.

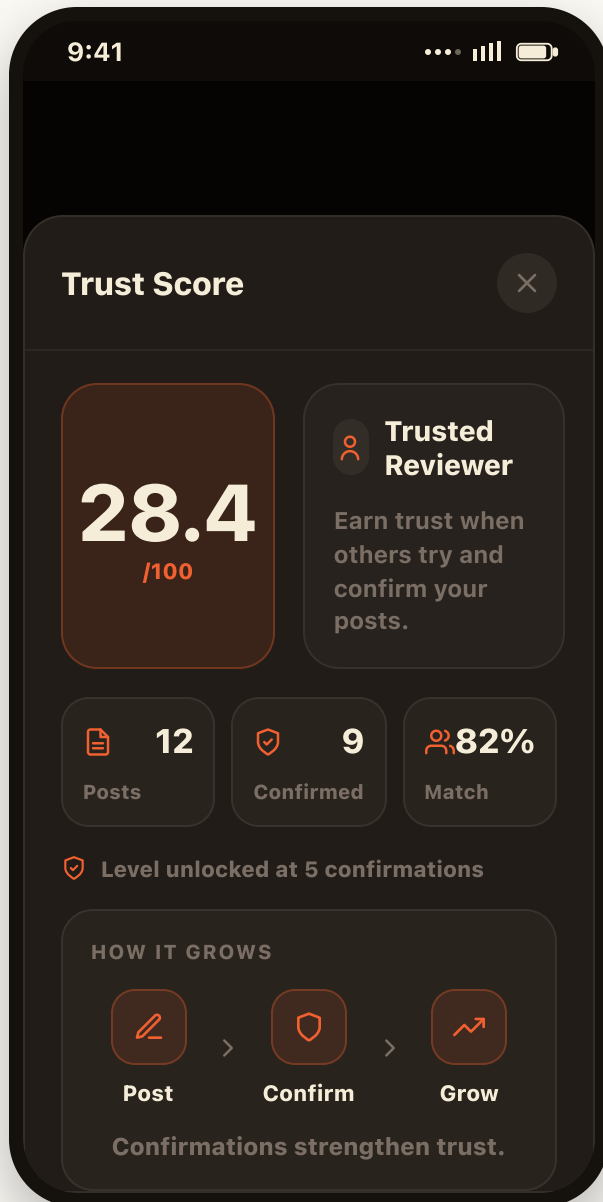

Profile — posts

Your profile. Avatar, stats (Trust / Places / Dishes / Circle), and your post grid.

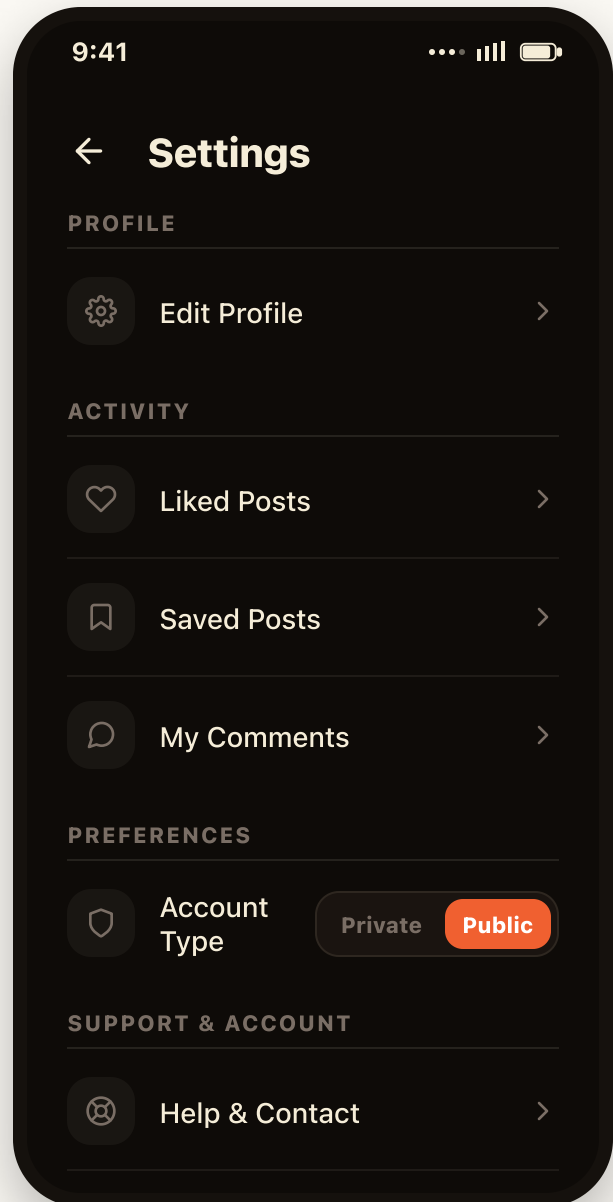

Profile — memories

The Memories tab: a timeline of private rooms with date, place, and unread / participant counts.

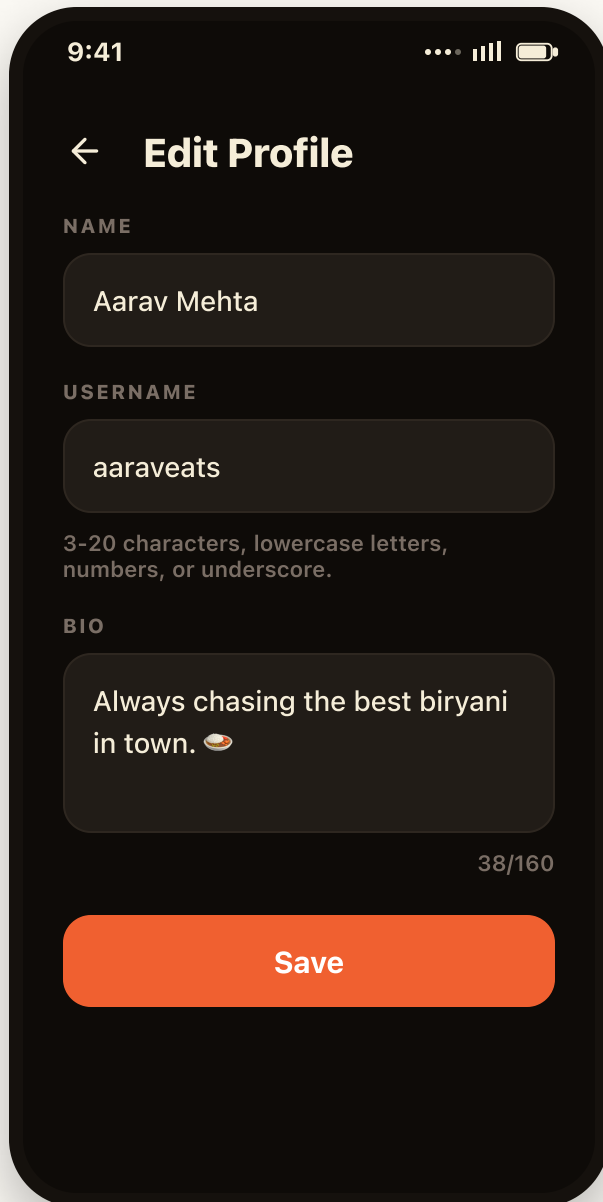

Trust score sheet

Bottom sheet from the profile stat. Score /100, level, post/confirm/match metrics, how it grows.

Settings

From the profile gear. Grouped rows: profile, activity, preferences (account type), support & account.

My Circle

Your trusted circle: avatars, handles, places shared, and a Remove control per member.

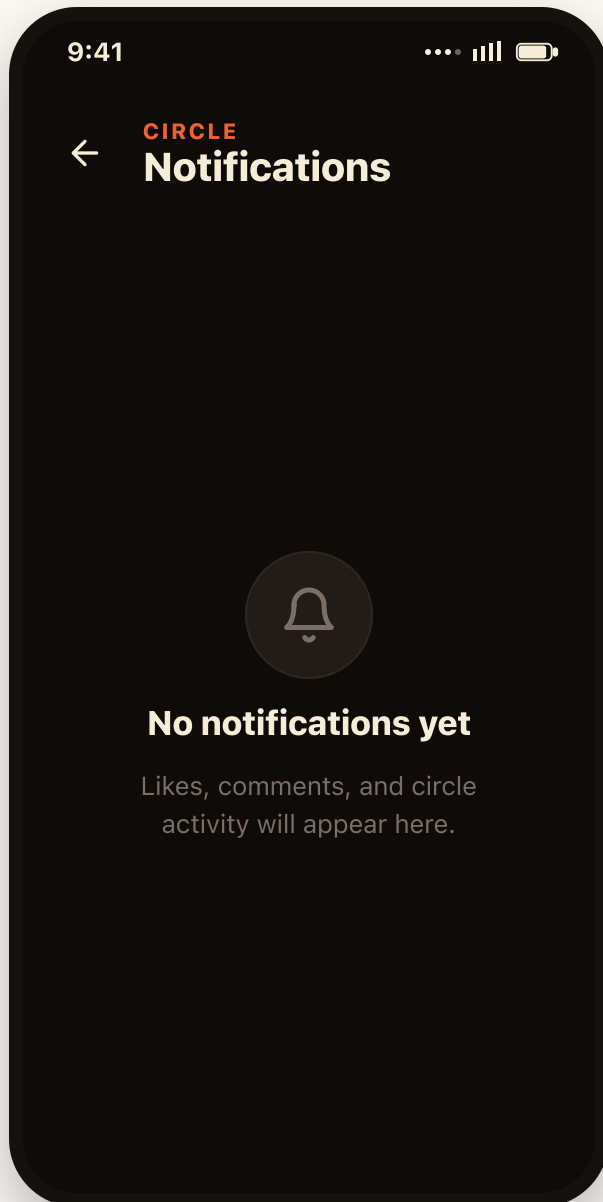

Person profile

Another reviewer, opened from Explore or a post. Same stats layout with their public posts.

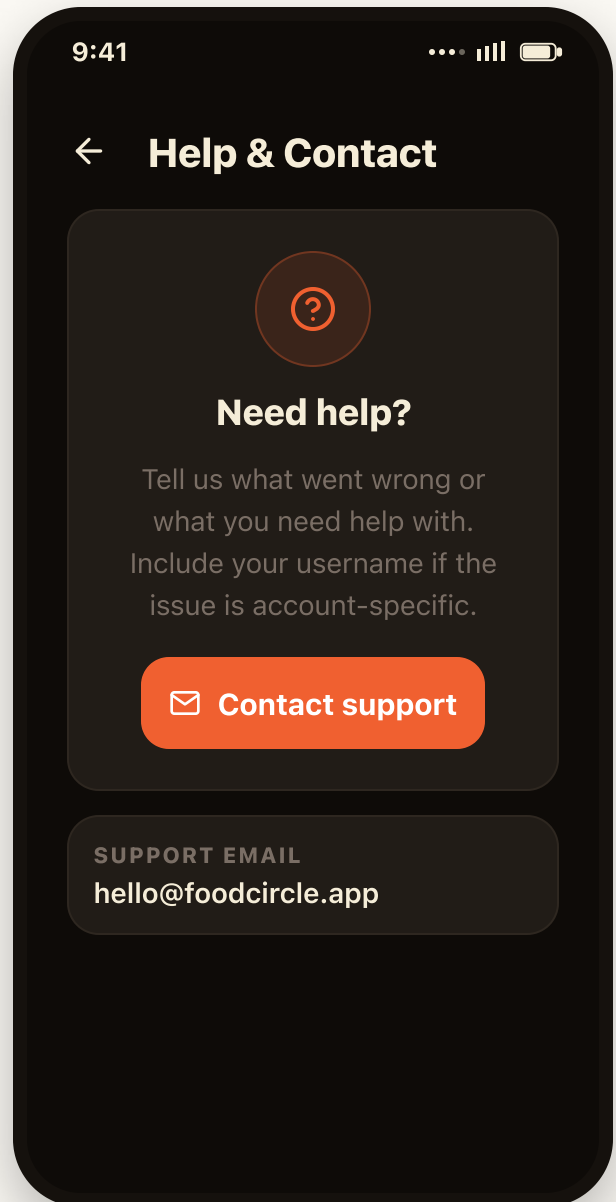

Post detail + comments

A post opened full-screen with its comment thread and an inline composer.

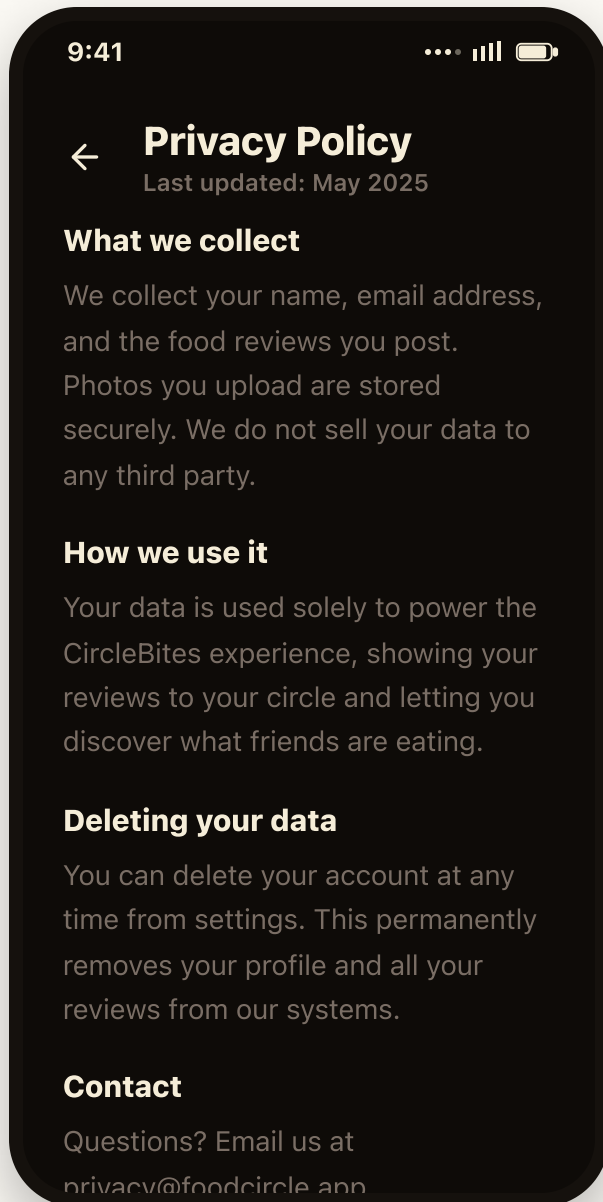

Notifications

Reached from the bell. Empty state today — likes, comments, and circle activity will land here.

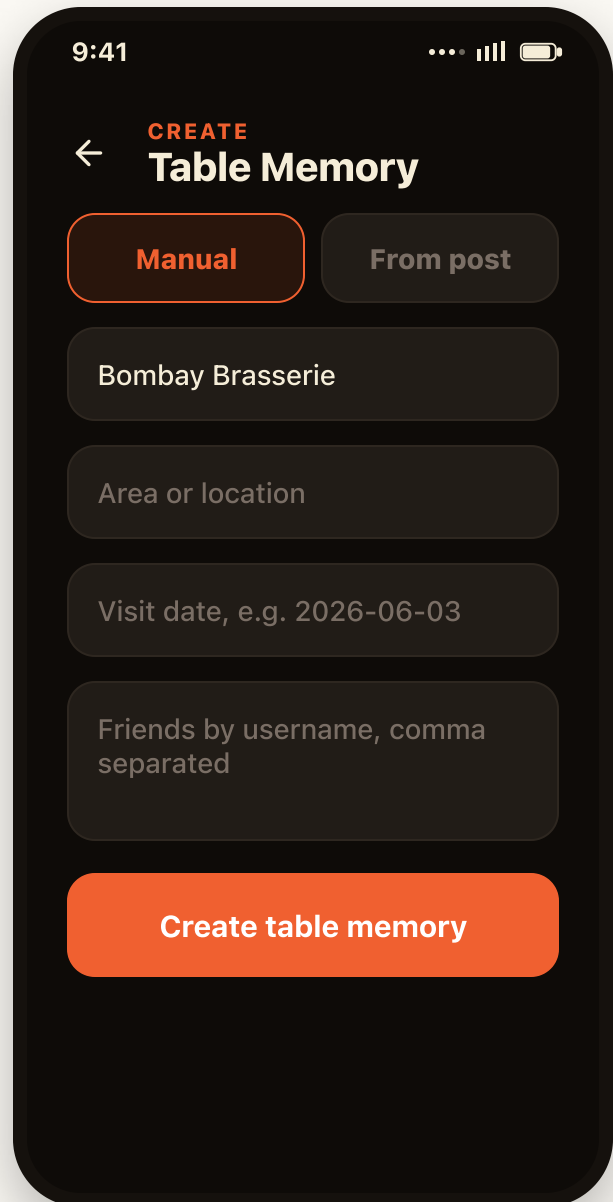

Help & Contact

Support entry from settings. A contact card that opens email, plus the support address.

Privacy Policy

Static legal page from settings, broken into short sections (collect / use / delete / contact).

Create Memory — form

Direct memory builder (also reachable from a post's share). Manual or from-post, with details.

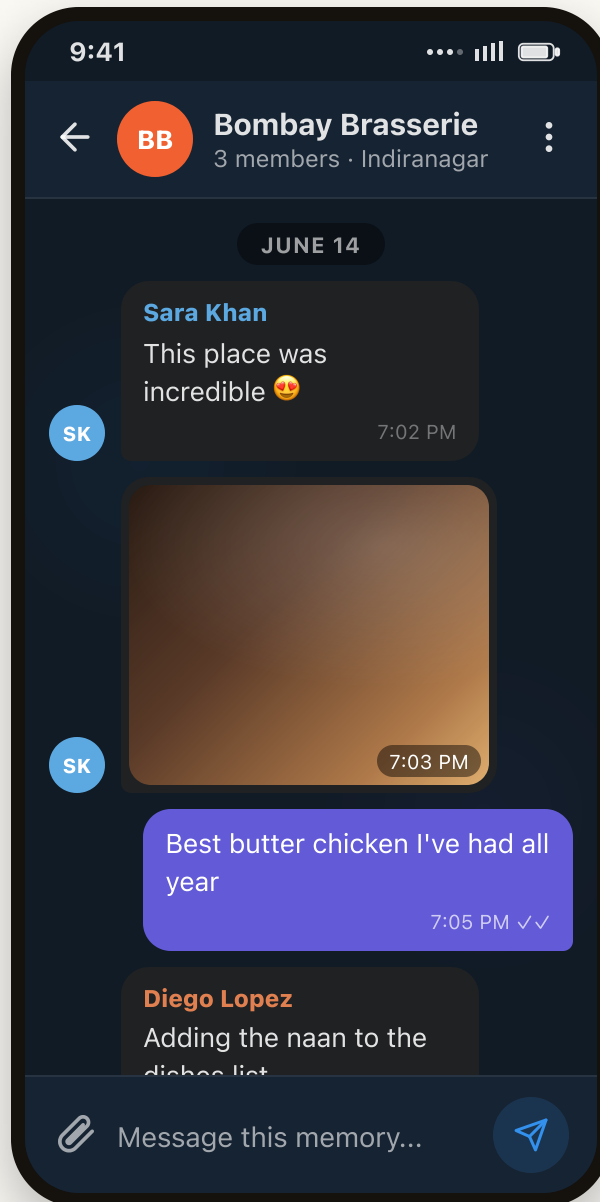

Table Memory — chat room

The memory room: Telegram-style chat over a food wallpaper. Sent (indigo) vs received bubbles, media, dishes/people panels, blue composer.
